# UCPH's AI declaration

## Declaration of using generative AI tools

☒ **I/we have used generative AI as an aid/tool** *(please tick)*

☐ **I/we have <u>NOT</u> used generative AI as an aid/tool** *(please tick)*

*If generative AI is permitted in the exam, but you haven't used it in your exam paper, you just need to tick the box stating that you have not used GAI. You don't have to fill in the rest.*

**List which GAI tools you have used and include the link to the platform (if possible):**

*ChatGPT - https://chatgpt.com*

**Describe how generative AI has been used in the exam paper:**

*1) Purpose (what did you use the tool for?)*
*Discussing the possible test cases in high level for the tasks.*
*2) Work phase (when in the process did you use GAI?)*
*As it is high-level discussion, in the thought of how many and in which cases I may need the tests. The rest is handled by me.*
*3) What did you do with the output? (including any editing of or continued work on the output)*
*I used it for including new tests in my code, some of the test **ideas** were given by ChatGPT of OpenAI.*

*Please note:* Content generated by GAI that is used as a source in the paper requires correct use of quotation marks and source referencing. Read the guidelines from Copenhagen University Library at KUnet here.
